The Danersk Salem Bed

EW people realize that in the period when the most beautiful and valuable furniture ever produced in this country was made, the little town of Salem was noted in all the Colonies for the superlative beauty of its productions.

Now that these things are once more the supreme objects of affection and exclusiveness in our American homes, we offer reproductions of the choicest examples from the great collections of the country. And it is our pride that we are selling them at lower prices than any pieces of equal quality made today.

You will be interested in the Danersk Salem Bed-the beauty of its wood and the charm of its form and color.

DRINK MORE

Sir Charles Higher

BELIEVE that Teaeither hot or iced-is an ideal drink for American people. It has a stimulating effect yet it cannot harm the health of even the kiddies in the slightest degree. My own little girl of ten years of age has had at least four cups of India
Tea per day since she
was six. She is full of
energy, rosy cheeked and has never had a serious illness.

Tea, if properly made, is a most refreshing drink. It cheers you up; it creates new energy. Try a cup in the afternoon and see what a splendid effect it has on your spirits. It is a great digestive. In England, the domestic servants drink from six to ten cups of tea each day. Manual workers like to drink tea. Office clerks and stenographers drink tea every afternoon. It helps to keep them happy and energetic. India Tea is cheap too! One pound will make 250 cups of strong tea, if you make it right. This is the correct way:-

Be sure you use India Too or a blend containing India Tea, and make it in the correct way—as is served in England. Us an earthenware teapor Put into it one teaspoor ful of India Tea for each ful of India Tea for each cup of tea required. Be sure the water is poured into the teapet the moment it boils. Allow to stand for 5 minutes to infuse. Put a little milk or cream into each cup before serving the tea. It greatly improves the flavour. Then add sugar to tasts.

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe pleasant remedy for constipation, sour stomach, torpid siver, bad breath, and similar disorders. Dr. Edwards a widely known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recognized by their olive color, Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.

REPLY TO AN AMERICAN. Chicago, Nov. 25.—The article by "An American" should not go unnoticed, for it discloses a dangerous state of affairs. It is bad enough for an audience to applaud the showing of a communists narade: but for that same audience, only ore of them, to greet with greater gusto and more noticeable applause and en-thusiasm the victory of Rockne's railis unthinkable. That Notre Dame, going in as the under dog, outwelghed and apparently outclassed, should finally deeat the Army, not in a spectacular noment or two but for the greater portion of sixty minutes of honest effort, is unbearable; and that an audience of

middle westerners, residing in America-or has Austin seceded?—should do the very un-American and unsportsmanlike thing of applauding the upholders of the football honor and dignity of the middle west is akin to treason.

'HAD TO BE CARRIED

Quickly put on feet again by simple home treatment Laid up for two weeks with an at-tack of rheumatism or neuritis in the legs, a Canadian writes all the way from Moncton, N. B., to tell

of the quick relief he got from Sloan's.

"I could not walk for two-weeks," he writes. "I had to be carried around like a baby. But one bottle of Sloan's Liniment put

one bottle of Sloan's Liniment put me on my feet again."

Sloan's gives real help to all kinds of muscular pain because it stirs up your body's forces to drive out the germs and poisons that cause the trouble. Just pat it or lightly—and a healing tide of fresh. germ-destroying blood is sent tingling through the pain-ridden tissues. No rubbing! It's the medicine that does the work.

Soon the swelling and inflammation go down. The aching stops. Almost suddenly you find yourself really free from pain, really comfortable at last. Get a bottle today. All druggists—35 cents.

Party Men Get Right to Criticize Leaders.

ROME, Nov. 28.—(P)—The demo-ratic movement in the ranks of fas-ism has won its first victory in the hape of restoration to all members of he right, withdrawn in the early days of the revolution, of discussing and riticizing freely the methods and pol-cies of Premier Mussolini's lieuten-

Article 28 of the new statutes of the party, which always proudly boasts of being the arch enemy of all forms of theralism and democracy, orders the local leaders to accord to the members inhimited right of free discussion. Although the concession applies only of the party and does not imply granting actual voice in the control which ontinues to be exercised exclusively by Sig. Mussolini through his aides, it is interpreted as the first step of a compromise with democracy comparise with soviet Russia's compromise with capitalism.

Free Speech to Save Party.

Free speech, which long has been the battle cry of the democratic elements, has been granted, it is understood, as a means of svoiding the necessity of dissolving the party. Until recently, complete abandonment of the party seemed imperative because many of the provincial Fascist units seethed with local quarrelings, the indiscipline going in some cases as far as open refusal to heed the orders of the national directorate.

When the premier's explicit orders failed to crush the disputes, the abolition of popular elections within the ranks of the black shirts was ordered, but the Democrats warned that the tranquillity thereby attained could not endure unless the rank and file felt they had some share in running party affairs. Free Speech to Save Party.

First and Refunding Mortgage Gold Bonds 5% Series Due October 1, 1956

Price 953/4 and Interest, Yielding Over 5.25%

The company agrees to pay interest without deduction for any normal federal income tax up to 2%.

The following information is taken from official sources.

The company, a merger of several successful operating companies, supplies electric power and light to a large part of the State of Arkansas. Among the 110 communities served are Little Rock, Pine Bluff, and El Dorado. The company does some steam heat, water and ice business and also owns and operates street railway systems in Little Rock and Pine Bluff. The total population in the territory served is estimated at over 260,000.

As officially reported for 12 months ended October 31, 1926, gross earnings from operation were \$5,782,397; net earnings, \$2,608,261, or more than 2½ times the interest charges of \$1,010,210 on the \$20,000,-500 of bonds outstanding with the public, including this issue. Of gross earnings about 72% was derived from electric light and power service.

These bonds will be secured, in the opinion of counsel, by a first mortgage on the major portion of the company's property and by a direct mortgage on the remainder, subject to two closed issues of \$2,000,500 underlying divisional bonds in the hands of the public and certain minor real estate mortgages.

The company is controlled through ownership of all of its common stock (except directors' shares) by the Electric Power & Light Corporation. The Electric Bond & Share Company supervises (under the direction and control of the Boards of Directors of the respective companies) the operations of the Electric Power & Light Corporation and the Arkansas Power & Light Company.

We recommend these bonds for investment, and shall be pleased to send a circular describing the issue in detail.

THE CELOTEX COMPANY

Ten-Year 6% Convertible Sinking Fund Gold Debentures

Dated November 1, 1926

Convertible at the option of the holder from February 1, 1929 up to and including November 1, 1935 into preferred and common stock of the Company on a unit basis of eight shares of preferred stock and two shares of common stock for each \$1,000 principal amount of these debentures plus a cash payment of 10% of the par value of the debentures surrendered for conversion.

We summarize as follows from a letter of Mr. B. G. Dahlberg, President of the Company:

The Company: The Celotex Company, incorporated in 1920, began quantity production of Celotex in 1922 and since that time has established its product throughout the world as a standard building material. Starting with a production of 18,699,359 square feet in 1922, the Company practically doubled its production in each succeeding year until for the year 1925 123,624,351 square feet were manufactured and sold, and it is anticipated that sales for the year 1926 will exceed 200,000,000 square feet. The main office of the Company is located at Chicago, Illinois, and offices are maintained in the principal cities of the United States.

Product: Celotex is a thermal insulating lumber made by converting sugar cane fibre into a strong broad board. As an insulator against heat and cold, Celotex is the approximate equal of cork. Extensive tests made by the American Society of Refrigerating Engineers and the Armour Institute of Technology show that one inch thickness of Celotex has the same insulating value as 3 inches of solid wood, 4 inches of plaster board, 8 inches of plaster, 12 inches of brick or 25 inches of concrete. The Celotex Company produces more insulation used for building purposes than all the other insulation manufacturers combined.

Property: Upon completion of present construction the Company will have two operating units: the present plant at New Orleans, Louisiana, producing 1,250,000 sq. feet of Celotex per day, and the new unit at Porto Rico producing 500,000 feet per day, a total of 525,000,000 feet per year. The plants are of modern fireproof steel and concrete construction located strategically with reference to raw material, shipping facilities and markets.

Security: This issue of Debentures will be a direct obligation of the Company and the Indenture securing them will provide that, while any of the Debentures are outstanding, no additional bonds in excess of \$1,250,000 may be issued under the existing First Morgage, that no additional mortgage shall be placed against the existing property of the Company, and will contain adequate restrictions against the payment of contain adequate restrictions against the payment of cash dividends or investment in fixed assets that would affect the current asset position. The combined present market value of the preferred and common stocks of the Company is in excess of \$18,000,000, representing a very substantial equity for the holders of these Debentures.

Earnings: The following table gives a comparison between net earnings available for interest charges and actual interest charges paid on the funded debt for the period in accordance with the audit of the books of the Company by Messrs. Peat, Marwick, Mitchell & Co.

1924—10 months end-ing Oct. 31, 1924..\$ 314,920.58 \$36,601.62 8.6

1925—1 year ending Oct. 31, 1925.... 557,214.72 66,424.91 8.3 1926—1 year ending Oct., 31, 1926..... 1.451,632.07 91,725.13 15.2

For the year ending October 31, 1926, net earnings were over 6 times maximum interest charges on the total funded debt to be outstanding including these Debentures. Such net earnings for the past two years and ten months average over 3½ times such interest charges. Increased production at New Orleans beginning December 1, 1926, should result in annual net earnings of \$2,000,000 and upon completion of the Porto Rican plant about January, 1928, such earnings should be \$2,500,000 per annum.

Sinking Fund: On May 1, 1929 and each year thereafter to maturity a Sinking Fund will retire \$100,000 par value of these Debentures either by purchase in the open market; call by lot; or by the application of converted Debentures.

Purpose of Issue: Proceeds from the sale of these Debentures will be used to reimburse the Treasury of the Company for expenditures made in connection with additional units at New Orleans and to provide a portion of the additional capital needed for the construction of the Porto Rican plant.

Legal Matters: All legal matters pertaining to the issuance of these Debentures have been under the supervision of Messrs. Butler, Lamb, Foster & Pope, Attorneys, Chicago, for the Bankers, and Messrs. Alden, Latham & Young, Attorneys, Chicago, for the

Consolidated Gas Electric Light and Power Company of Baltimore

First Refunding Mortgage 5% Sinking Fund Gold Bonds, Series F

Dated June 1, 1925

Coupon Bonds \$1,000 and \$500 denominations, registerable as to principal, and fully registered Bonds in denominations of \$1,000 and authorised multiples; coupon and registered bonds interchangeable. Redeemable, as a whole or in part, at any time on 60 days' notice at 105 during first 10 years, at 104 during second 10 years, at 102/2 during third 10 years, at 101 during next 8 years and at 100 during last 2 years before maturity; plus accrued interest in each case. Annual Sinking Fund of 1% of First Rejunding Mortgage Bonds outstanding, for purchase or call and retirement of First Rejunding Mortgage Bonds.

The following is from information submitted to us by the Company:

The Company does entire gas, electric light and power business in Baltimore, also extending its operations into suburbs and surrounding counties. Population served about 900,000. Its gas and electric rates average lower than those in any other large city on the Atlantic seaboard. Grants and condi-tions of the Company's franchises are satisfactory.

The proceeds of these Bonds (together with additional funds to be supplied by the Company) will be used to redeem securities of a subsidiary company and to reimburse the treasury of the Conto reimburse the treasury of the Con-solidated Company in part for the cost of property additions and extensions. They will be secured (equally with \$24,790,500 bonds previously issued) by mortgage on all properties now owned or hereafter acquired. Bonds are re-served to refund all underlying issues.

During the three years ended December 31, 1925 net earnings before depreciation averaged more than 3 times fixed charges, despite rate reductions in 1923 and in 1925. Net earnings of \$10,004,845 for the 12 months ended October 31, 1926 were approximately 31/4 times fixed charges upon completion of this financing. The Public Service Commission's recent further reduction in electric rates, effective January, 1927, while applying to service to be rendered thereafter would not impair the ratio of 3 times fixed charges if applied to the earnings of the last twelve months. twelve months.

The Company will have outstanding, upon completion of present and proposed financing, a total of \$14,000,000 Preferred Stock, issued in Series, and Preferred Stock, issued in Series, and 925,700 shares no par value Common capital stock, having a total indicated market valuation at current quotations, exclusive of Stock shortly to be issued, of more than \$57,000,000 as compared with a total bonded indebtedness including this issue and underlying and subsidiary mortgages, of \$60,625,500 principal amount. Continuous cash dividends on the Common Stock have been paid since 1910. In October, 1924, the Common Stock, then of a par value of \$100 per share, was changed into Common Stock of no par value, on the basis of four shares of no par stock for each share of \$100 per value. The present dividend rate is \$2.50 per annum per no par share.

Illinois Hotel Building

Aurora Building Corporation

First Mortgage Building and Leasehold 61/2% Serial Gold Bonds

Dde Serially 1929 to 1946

CHICAGO TRUST COMPANY, TRUSTEE

SECURITY: These Bonds will be the direct obligation of the Aurora Building Corporation, and will be secured by a closed first mortgage on the Illinois Hotel Building, and the 100 year Leasehold Estate, renewable forever, in the land thereunder, containing approximately 17,000 square feet, having a frontage on Island Avenue of 289 feet and on Main Street of 64½ feet.

The Illinois Hotel Building will be a modern, scientifically planned steel frame fireproof struc-ture of 19 stories, basement and sub-basement containing 206 hotel rooms, each with private bath, and with a number of stores, shops and offices for sub-rental purposes. There is a two-story and basement building containing stores, shops and offices now on a part of the land. This building will be physically connected with the hotel building addition thereto which will be one of the outstanding hotels to be found in any city of comparable population in America.

A satisfactory completion bond has been furnished by the General Contractor guaranteeing completion of the building on or before November 1, 1927, and as additional protection, the total monies and securities required to cover the cost of the hotel building addition have been or will be deposited with Depositaries and will be disbursed only in accordance with the provisions of the Trust Deed.

EARNINGS: A conservative estimate, after proper allowances for vacancies, of the combined Net Earnings of the Corporation and the hotel lessee is more than \$142,000 annually, or more than three times maximum interest requirements of this issue of Bonds.

The present unit of the building is 100% rented to a high class of tenants. The hotel addition has been leased for a term of 25 years from and after its completion to a financially responsible and experienced hotel operator at a term rental of more than \$2,250,000. The hotel lessee is Mr.

Henry S. Duncan of New York City, who will appropriately and completely furnish and equip the hotel. In addition Mr. Duncan will provide working capital and the necessary supplies for the operation of the hotel. The entire furnishings and equipment, valued at more than \$150,000, will be covered by a chattel mortgage securing the payment of the rentals by said hotel lessee. The lease and the chattel mortgage will be deposited se and the chattel mortgage will be deposited with the Chicago Trust Company, as Trustee, as further security for this issue of Bonds.

DIVERSITY OF INCOME: The diversity of income, all of which is secured by leases to financially responsible tenants, gives definite assurances as to the safety of these Bonds and the prompt payment of interest and principal.

VALUATION: The security for this issue of Bonds has been appraised as follows:

The present unit of the Building-

The City of Astoria, County Seat of Clatsop County, established in 1811 and incorporated in 1864, is the third largest City in the State and second in commercial importance. It is located at the mouth of the Colombia River, in the Northwestern corner of the State, about 100 miles West of the City of Portland. Transportation facilities are furnished by the main line of the Spokane, Portland & Seattle Railway Company, owned jointly by the Great Northern and the Northern Pacific Railways, and by thirty steamship lines, operating vessels to and from all parts of the world.

Among its industries are iron foundries, flour mills, grain elevators, planing mills, box factories, saw mills, and allied industries which furnish a substantial monthly payroll. It is the headquarters for the Columbia River Salmon Fisheries, there being twenty-one canneries and ten cold storage plants, with an annual output in excess of \$6,700,000. Financial accommodations are furnished by four banks with combined resources aggregating about \$8,500,000.

These Bonds are direct, general obligations of the entire City, payable, both principal and interest, from direct annual ad valorem taxes levied against all the taxable property therein.

Ignorance

is what makes "Social" Diseases so destructive

Ignorance of the seriousness of "Social" Diseases is largely responsible for their destructive results.

When you hear that one form of "Social" Disease is "no worse than a bad cold" you are listening to a vicious falsehood—one that has condemned thousands of men and women to lifelong misery, and has robbed thousands of helpless infants of their eyesight.

Briefly, here is the truth about "Social" Diseases. When promptly and properly treated, they are almost always curable. But when improperly treated, or neglected, they invariably result in disability or even death.

Insanity, blindness, paralysis, epilepsy, heart disease, locomotor ataxia, apoplexy, still-born and defective children—these are only a few of the awful results of uncured "Social" Diseases. Thus you can see how disastrous it is to neglect a "Social" Disease or to attempt to cure it yourself.

Equally disastrous is the frequent practice of discontinuing treatment once the uncomfortable symptoms of a "Social" Disease have disappeared. To do this encourages the development of serious complications, and renders more difficult if not impossible an eventual cure.

The man or woman who wins in the fight against a "Social" Disease is the one who immediately seeks reliable treatment and continues it until definitely

cured. The attending physician alone should decide when treatment may safely be stopped.

The Public Health Institute, by its accessibility, convenient hours and reliable treatment at low fees, has made it unnecessary for any victim of a "Social" Disease to go uncured because of a lack of money or time.

Open daily except Sunday from 10 A. M. to 8 P. M., the patient may be treated during his lunch hour, on his way home from work, or in the evening. Treatment is administered without delay by experienced physicians in surroundings of privacy and comfort.

If you know or suspect yourself to have a "Social" Disease, do not let another day pass without getting proper medical attention. Go at once to your family physician or come to the Public Health Institute for examination and advice. As a "Social" Disease may be inherited or otherwise acquired without your knowledge, it is extremely advisable to be examined if only as a measure of prevention.

Book of Facts

sent without charge in plain envelope

Much authentic and valuable information about "Social" Diseases and their treatment is contained in "The Door to Health and Happiness," a 34-page illustrated booklet of general interest. It clears up many misconceptions regarding these diseases and should be read by every citizen who strives to be properly informed.

This booklet also describes the aims and accomplishments of the Public Health Institute, and by means of its scores of illustrations gives the reader an excellent conception of the Institute's splendid facilities for treating "Social" Diseases speedily, privately and economically.

A copy of this informative booklet will be sent in a plain envelope upon receipt of coupon.

These may be employed outside of the home and in it. Certain actresses claim, for instance, that they find themselves not so much in need of daily dozens as rest after their strenuous moving about during their professional hours.

number of miles in the course of her day would likewise find rest periods more to her advantage than gymnasnts. The woman who does her own housework, particularly if she has children that have to be lifted up, and picked up after, along with bed making, sweeping, cleaning, and dusting has enough exercise in her twelve to sixteen hours' work to call it a day. And, incidentally, I heard one of these young mothers, who ac-complishes a few hours' vocational work outside of her home, explain that if it were not for the exercise she gets in housework and looking after the children she would be physically unfit for the extra work. whom a nervous breakdown was constantly being predicted.

The girl or woman who needs a
specified amount of time given over
to exercise daily outside of her work
is the one employed in an office where
most of her activity is confined to the desk in front of her. She needs it more than any other class of women workers. She is peculiarly suscep-tible to the ills of constipation and all the other allments that attend it, which are many, and which increase as the years of neglect run, on.

Every young woman worker should include in her day's program—preferably at the start of the day—from ten to fifteen minutes of setting up work! It does not matter what system of exercise, or whose, so long as the muscles of the body are put through enough active movement to keep the system fit. During the day the sedentary worker should arrange to make frequent trips to the water container and drink freely thereof. Also, she and drink freely thereof. Also, she should take every opportunity to get up from her desk and walk around. Instead of calling the boy to run er-rands she should make the quick trips

never sit down at all. For tulie is the most perishable of fabrics and the most perishable of fabrics and, once crushed, like the rose, it never comes to life again. Perhaps for that very reason it seems the lovellest thing a young girl can wear. Its ex-quisite fragility, the slight stiffness of its grace, and its air of dainty fresh-

qualities of youth.

Certainly it is all the rage for the début parties of the season, and, of course, is most frequently seen in the bouffante mode. One charming feature stressed at present is the shaded tulie. By faint gradations of tone deep rose shades into shell pink or orchid into mauve. Often the skirt shows bandings of contrasting color which go all the way round or stop in front to give the suggestion of a panel. One charming example of this panel. One charming example of this used gray bands on a tulle skirt of Today we show a Mance frock which

sponsors a simple style of bouffante. The bodice, with its V neck, is fashioned of white taffeta and is both closely fitted and untrimmed. From the hip line the skirt of white tulle billows out and falls almost to the ankles. Deep pink flowers and streamers of pink satin ribbon are fastened in front a little to one side. You may, if you choose, cover the bodice with tulle. This is often done when so plain and tightly fitted an effect is not desired. Let me add that tulle frocks of the bouffante persuasion are almost always made long. The grace of this mode depends largely on having sufficient length in the skirt.

AUTOMOBILES GASOLINE. CADILLAC The Fact That a Type

61 Is a Cadillac Is Your Guarantee of Satisfaction Cadillac has for years been building fine automobiles. They have been built to endure and

to satisfy. Their reliability, power, and dis-tinguished lines have always made them preferable buys. Type 61 Cadillacs were particularly noted for their dependability.

Winter and summer alike they were, and in proportion to their price, still are ready to take you anywhere, any time.

We are featuring some of these Type 61's which have been put in excellent mechanical condition in our own shop. Some of them have new genuine Duco finishesif not, the finish is good. The cars are fully equipped and the tires are in fine condition. The best of these are sold with a 30 day warranty-at prices surprisingly low for Cadillacs.

You can buy these cars on the GMAC time purchase plan, and your present car will be taken in trade as part pay-
